“When the internet started, little did we know we were entering into the Web 2 revolution, now, with crypto, we are at the forefront of Web 3 or the Metaverse and have so much to learn. The upcoming educational meet ups will also highlight trending topics such as **NFTs and Digital Ownership** as well as **Decentralized Autonomous Organizations (DAO’s)**. “Through expanding our CryptoCurious’ courses and building relationships within our communities in these meet ups we want to be able to reach out and educate on all things crypto. The future of finances and how we own data and assets is very exciting indeed,” stated Shirley McPhaul, Director of CryptoCurious.

Since PRBTA first announced CryptoCurious in alliance with DLTx, this effort has thus far impacted over 1,250 people with first-hand knowledge and education.
